Student Name: _____ **_____ TOTAL**

*The LLE program is an enhancement to the standard Explorations program designed to engage students in activities in which they may not ordinarily have had the opportunity to participate. Many of these courses have significant costs associated with them (i.e. fees for specialized instructors, equipment rental, specialty food costs, specialized technology needs, bussing). In order to create equal opportunity for all students to access these programs, we have opted to charge the same fee for all programs rather than different fees for each course. The fee indicated above does not fully cover the cost of running the LLE program but helps to offset the overall expenditures, thus enabling the school to continue to provide these exciting educational opportunities for our learners.

Please note: As per District Policy #205, the intent of our fees is to assist in covering the school's costs. No student will be denied participation because of an inability to pay. Please contact Ms. Amy Strachan at amy.strachan@sd8.bc.ca if a subsidy is needed. Depending on family circumstances, subsidy options may include:

- a) Deferred payment; b) Payment over time; c) Partial waiver; d) Full waiver

We focus on excellence for all learners in a nurturing environment.
